Trade Digital Design Specialist

Contracted to design EDMs, web, and social assets for the Supercheap Auto Trade brand within the Studio and Trade teams.

Graphic Designer

Produced print and digital marketing materials for Caden and their leasing clients. Led photography and videography for over 20 listings and team content. Helped evolve Caden's visual identity across leasing campaigns, editorial collateral, and digital media.

Web Designer

Designed and developed custom WordPress websites across diverse industries for local businesses around Greater Brisbane, handling both visual design and front-end build.

Founder/Designer

Founded Engulf Studio, a productised design subscription serving startup and founder-led clients across decentralised platforms and industrial manufacturing. Designed Pinecone (formerly Netbox), a video-sharing platform, for founder Giuliano Giacaglia. Scope covered brand identity, marketing site, and core product UI.

Graphic Designer

Partnered with founder Sunny Gosal to develop the Onwards & Upwards brand platform and refreshed identity. Designed print and packaging collateral, landing pages, apparel, social ads, and a beanie that drove over \$24,000CAD in revenue.

Graphic Designer

Created digital and print marketing collateral, refreshed internal and corporate design systems, and produced HTML5 banners, social, and campaign assets with external agency partners. Led design for the healthCar sub-brand (with Provident Insurance), delivering signage and collateral across 100+ locations. Produced 3D visuals for VTNZ's first new branch in ten years.

Web/Graphic Designer

Worked directly with founder Terry Miller to redesign Eight360's brand identity, website, merchandise, collateral, and stakeholder materials. Partnered with the software developer on technical visuals for product launches and investor presentations.
